Performance  
SERIES

High Efficiency Air Conditioner at 13.0 SEER

# Things to Consider Before You Buy

## Comfort

Carrier specializes in creating a customized home comfort system tailored to your needs with our broad selection of heating and cooling products. Your Carrier dealer can help you choose the best system for your home including a Performance™ Series air conditioner and Carrier-exclusive features that further enhance your indoor environment.

- The highly efficient forward-swept fan blade moves outdoor air at lower speeds to help minimize noise and maximize cooling capabilities.
- Bothered by that dry, “stacky” feeling in the winter or that muggy feeling in the summer?
  - IdealHumidity™ monitors and adjusts your home’s humidity level even when the system isn’t actively heating or cooling.† By keeping the proper balance of moisture in your home, you remain more comfortable at higher temperatures in the summer and lower temperatures in the winter. Add a Carrier humidifier, variable speed furnace or fan coil and our exclusive Infinity™ or Thermidistat™ Control to achieve IdealHumidity in your home.

*IdealHumidity™*

## Sound

Carrier's exclusive SilencerSystem II™ ensures extra-quiet operation by maximizing airflow and minimizing vibrations. With sound ratings as low as 67 dBA, a Performance™ Series air conditioner can be as quiet and unobtrusive as a kitchen refrigerator. And, because it sits outside your home, you'll rarely, if ever, hear it running inside.

### Comparative Sound Ratings (decibels)

† IdealHumidity™ continually monitors indoor humidity, indoor temperature and outdoor temperature, and has the ability to turn on your comfort system just for dehumidification.

# Carrier Systems for Unmatched Performance

**Humidifier** replenishes moisture to dry air.

**Evaporator Coil** allows the refrigerant to absorb heat from the air as it passes over the coil surface. The evaporator coil is located with the indoor unit and is also referred to as the indoor coil.

**Furnace** provides reliable, high efficiency heating for long-lasting comfort and energy savings. Available in high efficiency gas- and oil-based fuel sources.

**Air Cleaner** improves air quality by removing harmful and irritating airborne pollutants from your home.

**Ultraviolet Germicidal Lamp** inhibits the growth of contaminants on the indoor coil.

**Comfort Ventilator** combines fresh outdoor air with conditioned indoor air for improved air quality and maximum efficiency – great for today's tightly constructed home.

**Comfort Zoning** sets different temperatures for up to eight different areas of your home for truly customized comfort and enhanced utility savings.

**Air Conditioner** provides reliable, high efficiency cooling for long-lasting comfort and energy savings.

**Infinity™ Control** is more than just a thermostat. It's your interface to the Infinity™ System, the only system in the industry that allows you to control temperature, humidity, air quality, fan speed and ventilation.

## Reliability

At Carrier, your comfort is our business. That's why we have one of the most extensive product research and development facilities in the world. From initial design to final assembly, we monitor product quality throughout all phases of the process. Our exclusive 5-step, 100% run test ensures that every single unit we make exceeds industry expectations and meets the toughest standards of all – yours.

## Durability

Neither rain nor hail nor golf or soccer balls can keep a Carrier system from doing its job – it's built tough inside and out.

### Outside

- WeatherArmor™ Ultra protection and galvanized steel cabinet protect against corrosion and keep your system looking its best for years.
- Louvered coil guard looks great and helps keep your system operating at its best by protecting your coil from rocks, sticks, lawn and sports equipment and more.
- Baked-on powder paint evenly coats all exterior painted surfaces to provide superior rust and corrosion protection.

### Inside

- Forward-swept fan blades maximize airflow for enhanced performance and sound reduction.
- Filter drier removes moisture and debris from refrigerant to protect the compressor and maintain top efficiency and performance.
- Carrier's scroll compressor has the most trouble-free performance record of any compressor on the market today.

## Technology

- 1 **Scroll compressor** – the heart of the air conditioner, the compressor pumps refrigerant through the system.
- 2 **Infinity™ electronic control board** – works with the Infinity™ Control for the ultimate in comfort. “Smart” electronics track previous cycles and automatically select the best settings for maximum comfort and efficiency.
- 3 **Copper Microtube™/aluminum fin coil** – transfers heat outside to maximize indoor cooling while resisting corrosion.
- 4 **Carrier's exclusive SilencerSystem II™** helps deliver quieter operation by optimizing airflow, minimizing vibration and using sound-absorbing materials. The five key components include:
  - a. **Silencer top**
  - b. **Integrated fan motor and forward-swept fan blade**
  - c. **Compressor vibration isolator plate**
  - d. **Sound hood**
  - e. **Split-post compressor grommets**
- 5 **High- and low-pressure switches** – protect the system by shutting it off when harmful conditions are detected.
- 6 **Filter drier** – constantly filters the refrigerant to remove moisture or contaminants that can damage your system.
- 7 **WeatherArmor™ Ultra protection package** – combines four design elements that protect your comfort:
  - a. **Galvanized steel cabinet**
  - b. **Louvered coil guard**
  - c. **Baked-on powder paint**
  - d. **Painted ceramic-coated screws**

## Warranty

Carrier's Performance™ 13 air conditioner includes a ten-year limited warranty on the compressor and a five-year limited warranty on the entire unit. Extended warranties are also available. Ask your Carrier dealer for details.

## Efficiency

Seasonal Energy Efficiency Ratio or SEER number is like gas mileage. A higher SEER rating means a more energy-efficient air conditioning system. As of mid-January of 2006, the U.S. Department of Energy requires home cooling systems to meet a minimum rating of 13.0 SEER. Carrier was one of the first leading air conditioner manufacturers to fully support this environmentally-sound mandate.

- Carrier's Performance™ 13 air conditioner is available with an efficiency rating starting at 13.0 SEER.
- As an ENERGY STAR® partner, Carrier Corporation has determined that the Performance™ Series air conditioners that achieve system combinations of 14.0 SEER and 11.5 EER or higher meet ENERGY STAR® guidelines for energy efficiency.

SEER  
RATING

## High Efficiency Air Conditioners Designed with Your Comfort in Mind

## Greater Operational Efficiency

For every \$100 spent to cool your home using a 10.0 SEER air conditioner, a 13.0 SEER air conditioner should cost you approximately \$77. Actual savings will depend on the efficiency of your current system compared to the efficiency of a new system.

Operating cost estimate based on a 3-ton system.
